Take Care Medical Record

Driver's License – Category B

Frontend Developer
UX/UI Design
Stockholm

Frontend Developer with a strong interest in creating modern, user-friendly, and accessible web applications. Experienced in developing responsive solutions and working with API integrations and modern development tools. Motivated by solving problems and building digital solutions that provide value to users.

Seeking an opportunity to contribute technical expertise, dedication, and a strong desire to continue growing and developing as a software developer.

Education / Work Experience

Front End Developer

2024-2026 | YH Medieinstitutet Stockholm

Web Development with a focus on responsive design, accessibility, and user experience across web and mobile platforms. Experience in developing APIs, version control with Git, modern CSS frameworks, and database management. Worked according to agile methodologies and completed multiple team-based projects with a focus on real-world development

Internship (LIA) at Studio Pixel AB

2025-2026 | Hybrid/Nynäshamn

Web Development in CMS environments using PHP, JavaScript, and TypeScript. Created prototypes in Figma, developed custom client solutions and internal applications, and worked with SEO optimization. Built tools for security and GDPR compliance, including Security Header and GDPR scanners.

Medical Secretary / Healthcare Administrator

2017-2019 | YH Huddinge Adult Vocational College

Medical record documentation, medical terminology.

Business and Administration Program

2008-2011 | Nynäshamn High School

April 2014-Present

Ica Maxi Haninge AB

Sales Associate

Responsible for sales and customer service within the fresh food department, with a strong focus on delivering excellent service and maintaining high product quality. Worked in a fast-paced environment handling inventory management, ordering, and daily operations, while collaborating closely with colleagues to ensure efficient store performance.
