Sarah Sundberg

Frontend Developer
UX/UI Design
Stockholm

Driven web developer with a strong interest in creating innovative and accessible web experiences. During my education, I have developed a solid foundation in TypeScript, UX/UI design, API development, as well as frameworks such as Vue and React - all with a focus on responsive design and accessibility.

Education

Front End Developer

2024-2026 | YH Medieinstitutet Stockholm

Web development with a focus on responsive design and accessibility for web and mobile platforms. Includes both backend and frontend development, building APIs, and developing client-side applications using frameworks such as React and Vue.

Internship (LIA) at Studio Pixel AB

2025-2026 | Hybrid/Nynäshamn

Web development using PHP and JavaScript, creating designs in Figma and Photoshop. Working on client cases and building applications for their internal platform. API development, SEO, and metadata. Internal training courses.

Medical Secretary / Healthcare Administrator

2017-2019 | YH Huddinge Adult Vocational College

Medical record documentation, medical terminology.

Business and Administration Program

2008-2011 | Nynäshamn High School

Work Experience

April 2014-Present

Ica Maxi Haninge AB/Haninge
Sales Associate
Responsible for handling fresh products and providing customer service at the counter. Collaborate effectively within a team and manage orders.
